Subject: Extension Request, Larson Limestone, Pelican Point Quarry, M/049/011, Utah
County, Utah

Dear Mr. Collins:

I apologize for the delay in responding to your request for additional time to submit the updated maps of the disturbance at the Pelican Point Quarry.

Your request stated that you would require additional time to complete an updated NOI for the site. If Pelican Point Rock Products is presently contemplating amending their plan of operation, bond escalation will be performed at the time of the approval of that revision. The maps of the present disturbance that were requested are still necessary but these items can be included with the amendment.

The letter from Patrick Collins, Mt Nebo Scientific, stated that maps requested for the bond escalation could possibly be submitted by December 19, 2003. He also stated that in order to submit these maps along with the updated NOI, would require additional time, but he failed to set a deadline for submittal. Please furnish a letter containing a deadline for this submittal. At that time we will make a decision pertaining to your extension request.

If you have any questions please contact me at (801) 538-5382

Sincerely,

Doug Jensen
Senior Reclamation Engineer
